

# COPILLOT ASSESSMENT SUMMARY

*prepared for Your Organisation*

*50 data points covering best practice configuration of Microsoft Purview, Power Platform and SharePoint to secure and govern Copilot use*

Dec 2025 ■ critical ■ warning ■ ok

## SUMMARY FINDINGS

1. Default settings have not been changed to reduce the likelihood of oversharing
2. File and site sharing permissions are not being regularly reviewed to identify potential data leaks
3. The organisation has not implemented many best practice policies to monitor and govern Copilot usage
4. Some security integrations have not been enabled, limiting visibility and audit

*See the full report for detail of each data point and associated recommendations.*
